2026 WORLD CUP SQUARES

Pick a square. Last digit of each team's final score wins.

MATCH	DATE & KICKOFF	POOL / $ PER SQUARE

TEAM A: _____

TEAM B:	→ Draw 0-9 random after all squares claimed →									

HOW TO PLAY

1. Pick a match. Write team names in the TEAM A and TEAM B fields. Pick a stake (e.g. $5 per square).
2. Each person initials any number of empty squares until all 100 are filled.
3. After every square is taken, draw the numbers 0-9 randomly and write them across the top row and down the left column.
4. The winning square is the one matching the last digit of each team's final score.
   Example: final score 2-1 → Team A digit 2, Team B digit 1 → that square wins the pot.
5. Optional: also pay out the score at halftime, end of 90, and after extra time / penalties.
